

[www.daikin.com](http://www.daikin.com)  
VRV—Variable Refrigerant volume for advanced zoning capabilities, enhanced energy efficiency

[www.lennoxcommercial.com](http://www.lennoxcommercial.com)  
Complete line of Commercial Rooftop Units, Condensing Units, Split Systems and Furnaces

# Ewing | Kessler Mechanical Solutions

Division of Ewing | Kessler, Inc.

[www.ewingkessler.com](http://www.ewingkessler.com)

[www.mcquay.com](http://www.mcquay.com)  
Complete line of HVAC Products & Parts

[www.buildingtechnologies.siemens.com](http://www.buildingtechnologies.siemens.com)  
Full line of Control Products

## Annexair

[www.annexair.com](http://www.annexair.com)

Annexair is a premiere manufacturing firm that specializes in the design and construction of semi-custom and custom air handling equipment incorporating air-to-air energy recovery technologies.

## Aegis

[www.est-aegis.com](http://www.est-aegis.com)

Bearing protection rings that protect motor bearings for life

## AireDale

[www.airedale.com](http://www.airedale.com)

Integrated cooling solutions delivering industry-leading EER figures for precision and comfort cooling applications.

## APC

[www.apc.com](http://www.apc.com)

InRow cooling solutions and racking systems for a high density IT environment.

## Applied Air

[www.appliedair.com](http://www.appliedair.com)

Packaged, Dedicated Outdoor Airs Systems (DOAS), and ventilation equipment, direct gas fired, indirect gas fired, and air turn-over systems.

## ArctiChill

[www.arctichill.com](http://www.arctichill.com)

A world-class manufacturer of high-quality chillers and process cooling systems and accessories for Medical, Process, Military, Dry-Cleaning and Modular HVAC Air Conditioning chiller applications.

## CES Group

[www.ces-group.com](http://www.ces-group.com)

Custom Engineered AHUs, Chillers, & Heat Pumps. Mammoth, Govenair, Huntair, Venmar, Temtrol, Ventrol, and Webco.

## CGC

[www.cgc-group.com](http://www.cgc-group.com)

Hybrid heat pump systems for "GREEN" energy efficient comfort solutions.

## Chilled Beams

[www.semcohvac.com](http://www.semcohvac.com)

Chilled beams combine radiant cooling with conventional overhead ventilation to reduce energy usage, improve comfort levels, and reduce the architectural impact of ductwork and other mechanical systems.

## Danfoss

[www.namc.danfoss.com](http://www.namc.danfoss.com)

Adjustable frequency drives are specially designed for the unique requirements of HVAC applications.

## Dectron

[www.dectron.com](http://www.dectron.com)

Indoor air solutions for pool dehumidification to maximize human health productivity, comfort and quality of life.

## Ebtron

[www.ebtron.com](http://www.ebtron.com)

Thermal Airflow Dispersion Measurement products for proper building pressurization and contaminate dilution.

EMI  
[www.vironmaster.com](http://www.vironmaster.com)

Ductless split air conditioning systems for both cooling only and heat pump applications.

## Emerson

[www.hvac-drives.com](http://www.hvac-drives.com)

Building Automation HVACR variable frequency drives.

## Greentrol

[www.greentrol.com](http://www.greentrol.com)

High quality custom designed HVAC sensing & control solutions as well as custom designed instrument/control packages.

## Heatcraft

[www.luvata.com/heatcraft](http://www.luvata.com/heatcraft)

Heat transfer coils, custom replacement coil, booster coils, and heat transfer bundles.

## Innovent

[www.innoventair.com](http://www.innoventair.com)

Cost-effective solutions from the industry leader in the design of custom air handling equipment.

## Johnson Marcraft

[www.arizonacompanies.com](http://www.arizonacompanies.com)

Custom Air Handling Units and Air rotation systems for large, open buildings.

## Rawal

[www.rawal.com](http://www.rawal.com)

Dx-Coil, refrigerant control device that allows continuous system dehumidification and avoids compress cycling.

## Semco

[www.semcohvac.com](http://www.semcohvac.com)

Heat recovery products designed for improving indoor environments.

## Stulz ATS

[ats.stulz.com](http://ats.stulz.com)

Complete line of exceptional Precision Air (computer room) Conditioning Systems ranging from 1.5 through 100 tons of cooling capacity.

## Thermotek

[www.thermotek.com](http://www.thermotek.com)

Direct-fired heating units, including 100% outside air applications. Indirect-fired heating units.

## United Cool Air

[www.unitedcoolair.com](http://www.unitedcoolair.com)

Applied indoor split systems, self contained and spot chillers.

## UVDI

[www.uvdi.com](http://www.uvdi.com)

UV lights for surface and air treatment.

## Williams

[www.williamscomfortprod.com](http://www.williamscomfortprod.com)

Standard and Custom High-Rise Fan Coil Systems, Horizontal Fan Coils and Air Handling Systems.

## Yaskawa

[www.yaskawa.com](http://www.yaskawa.com)

Adjustable frequency drives are specially designed for HVAC/Industrial market.

100 G. T. Thames, Suite B1  
Starkville, MS 39759
